JODY G., AGE 6, LA PLAYA, MD GYMNASTICS
 "When Jody saw other kids on the playground doing cartwheels, she knew she had to learn too! Once Jody came to us and said "I want to learn how to do a cartwheel," we immediately began looking for gyms in our local area. With the rising cost of living, gyms have been raising their monthly prices and we knew we needed help. Every Kid Sports had been a huge aid to our family. Jody feels confident trying out new skills, loves getting stronger, and is well on her way to a perfect cartwheel."
 - Jody's mom, Cassie

ANALINE R., AGE 12, HASTINGS, NE SWIMMING
 "Analine is a jack of all trades! However her favorite sports are football, basketball and swimming. Every kids pass helped fund Analine's swim team membership and she is on her 3rd year on the swim team. She loves to swim and is striving hard to move up lanes and every kids pass has helped her be able to hone in on her skills. Honestly seeing how much she has grown and seeing how well her form has gotten is such an inspiration."
 - Analine's mom, Nancy

DANIEL F., AGE 9, SPRING, TX SOCCER
 "With this program it has allowed my child to play a sport and be on a team that helps shape his future. He is excited about making new friends and playing with current ones."
 - Daniel's mom, Adrian

LINCOLN G., AGE 5, GIG HARBOR, WA. FLAG FOOTBALL
 "Like many boys, Lincoln struggles with ADHD and impulse control. Three games in and I can see such a difference in Lincoln. He tries hard to focus and listen. He wants to be a helping part of the team. He cheers on his teammates and is driven to practice so that he can run faster and make touchdowns. Which today, on their third game, he did! He was so happy to go and tell his grandpa that he ran a touchdown. He was beaming! I think Lincoln found a place he enjoys that can help him focus and follow through on one thing at a time. I am deeply grateful."
 - Lincoln's mom, Tiffany
